Position Overview

Autodesk is changing how the world is designed and made. Our technology spans architecture, engineering, construction, product design, manufacturing, media, and entertainment, empowering innovators everywhere to solve challenges big and small. From greener buildings to smarter products to mesmerizing blockbusters, Autodesk software empowers innovators to design and make a better world for all. Autodesk Consulting's global team of professionals and partners bring together industry-leading best practices and capabilities in business and technology consulting, solution implementation, and custom development to help customers maximize the value of their investment in our technology.

Rapid population growth, a changing climate, and growing inequality—unprecedented circumstances demand novel solutions. Autodesk technology enables innovators to unleash talent and unlock insights to advance a more sustainable, resilient, and equitable world. Our customers are implementing smarter and more efficient design and manufacturing approaches, increasing materials productivity, developing more circular business models, reducing energy use, and enhancing supply chain responsibility.

In this role, you will create and lead a new Sustainability Practice within Global Consulting Delivery. The Sustainability Practice will work closely with Autodesk Sustainability & Foundation, Sales, Research, Product and Platform teams to partner with customers to deliver measurable impact. You will be responsible for managing a global team dedicated to helping our customers achieve their sustainability goals and create growth opportunities for Autodesk.

Senior Manager, Sustainability Practice

Apply

-
- Develop partnerships with customers, partners and other industry bodies that support understanding and prioritization of solution development investments
 - Partner with Autodesk Sustainability & Foundation and Autodesk Consulting regional teams to scale a sustainability consulting practice portfolio aligned to our Sustainability Impact priorities and compelling for customers to invest
 - Inform our Autodesk technology platform through results and insights from real engagements and innovations with enterprise and strategic customers
 - Promote visibility of the most innovative and impactful sustainability solutions from the global business through multiple media channels
 - Be a spokesperson for Autodesk's sustainability leadership among key customers through briefings, workshops, roundtables, focus groups and other engagement activities
 - Share learning and insights from our engagements across Customer Success, Foundation, Sales and Product and Platform teams

Minimum Qualifications

- Relevant work experience, especially in a Sustainability, Professional Services or Customer Success function
- Experience building and leading teams, both directly and through influence
- Experience delivering technology solutions that can be successfully repeated by others to help end customers to achieve their business objectives
- Familiarity with practices to help companies in the industries Autodesk serves to be more sustainable
- Skilled communicator who can adapt message to audience, capable of leading complex discussions, facilitating workshops, partnering to deliver sales presentations, and presenting at industry/corporate events
- Skilled at networking and influencing across matrix lines and building bridges, preferably with key stakeholders across Autodesk
- Passionate about helping people achieve better outcomes through technology

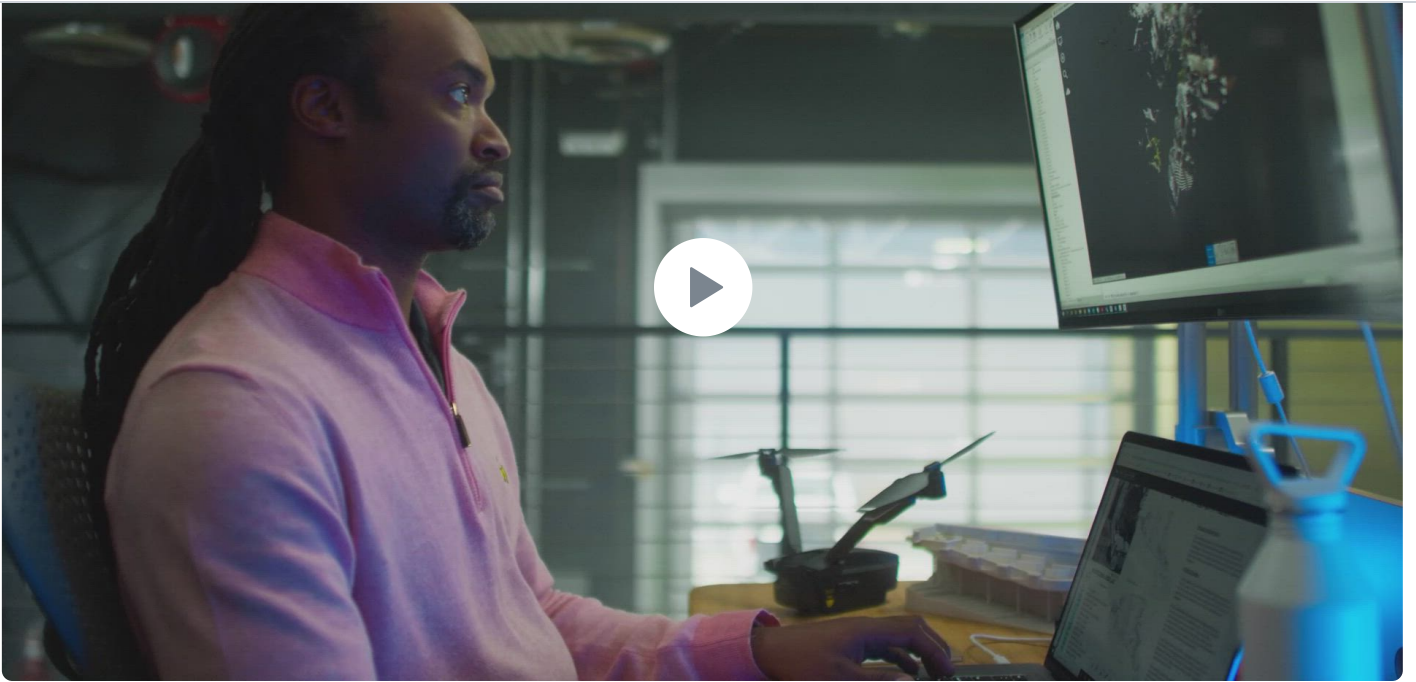

#LI-POST

At Autodesk, we're building a diverse workplace and an inclusive culture to give more people the chance to imagine, design, and make a better world. Autodesk is proud to be an equal opportunity employer and considers all qualified applicants for employment without regard to race, color, religion, age, sex, sexual orientation, gender, gender identity, national origin, disability, veteran status or any other legally protected characteristic. We also consider for employment all qualified applicants regardless of criminal histories, consistent with applicable law.
